CERTIFICATIONS

Oracle Cloud Infrastructure AI Foundations
Oracle • Oct 2025

Oracle Cloud Infrastructure Foundations
Oracle • Sep 2025

Microsoft Dynamics 365 Fundamentals
Microsoft • Mar 2024

TECHNICAL SKILLS

Languages: Java, PHP, JavaScript, HTML5, CSS3

Frameworks: Laravel, React, Node.js

Databases: MySQL, MongoDB, Query Optimisation

WORK EXPERIENCE

Website Designer

Computer Business Solutions, Maseru

May 2022 - Present

- ▶ Lead developer responsible for designing, building, and maintaining web platforms across 10+ government, corporate, and financial sector clients simultaneously.
- ▶ Developed and launched full web portal for the CAFI Lesotho Enterprise Assistance Programme grants platform, managing complex form workflows and applicant data.
- ▶ Designed and delivered websites for the Directorate of Dispute Prevention & Resolution, Ministry of Information (gov.ls), Metropolitan Lesotho, Lesotho Embassy in the USA, Lesotho Flour Mills, Prime Capital Financial Services, and LEGCO.
- ▶ Provides ongoing support and maintenance for LEC, NUL, Boliba Savings & Credit, TRC, WASCO, and the Ministry of Finance PMU ensuring uptime, security patches, and performance across mission-critical public platforms.
- ▶ Built RESTful API integrations, administered MySQL and MongoDB databases, and implemented secure authentication and access control across production systems.
- ▶ Currently leading development of a government e-services platform designed to automate citizen ID renewals, passport renewals, and driver licence processing a high-impact national digital infrastructure project targeting 100,000+ citizens upon launch.

Records Management Assistant

Elizabeth Glaser Paediatric AIDS Foundation, Maseru

Dec 2021 - Apr 2022

- ▶ Captured and managed COVID-19 vaccination data for citizens in the DHIS2 national health information system during the national vaccination campaign.
- ▶ Implemented standardised data entry protocols improving accuracy and consistency across 1,000+ vaccination records.
- ▶ Maintained compliance with health data standards and regulatory requirements experience directly applicable to regulated financial data environments.

Graphic Designer

Osmium Lesotho, Maseru

2021 - 2022

- ▶ Designed and developed full corporate website and created graphics for digital and print marketing campaigns using Adobe Photoshop.
- ▶ Developed complete brand identity packages including logos and marketing collateral for clients.

KEY PROJECTS

Society Group Savings Management System

Built a full financial management platform using Laravel and MySQL — member management, contribution tracking, loan processing, automated repayments, and role-based access control.

COVID-19 Statistics Dashboard

Real-time data visualisation dashboard built with React.js and Chart.js, featuring automated data fetching and interactive charts for national public health monitoring.

APIs & Arch.: RESTful API
Design, Microservices

DevOps & Tools: Git, GitHub,
WordPress, Server
Management

Cloud: Oracle Cloud
(certified), Linux

Security: Secure Coding,
Authentication, Access
Control

Design: Photoshop, UI/UX,
Brand Identity

Mobile: Android Development

Personal Expense Tracker

Budget management app with expense categorisation, spending analytics, and Chart.js visualisations; applying transactional platform design and data integrity principles.

Recruitment Management System – Internal system, Computer Business Solutions

Built a full internal recruitment platform using PHP/Laravel and MySQL covering job posting and applications management, candidate tracking and shortlisting, interview scheduling, automated email notifications, user roles and access control, and reporting and analytics dashboards. Showcases ability to design and deliver complete, secure, multi-user enterprise software from requirements through to production.

Costall – Meeting Cost Calculator – Industrial Experience Project, Monash University

Android application developed for a law firm to track and calculate the real-time cost of meetings based on attendee billing rates and session duration. Demonstrates mobile development skills, client-facing requirements gathering, and the ability to translate a business problem into a clean, functional software solution.
